

## TRAVEL EXPENSE MANAGEMENT

### Fire Engine Limousine

#### The brief

To encourage team building in a department comprising six ladies, a client requested arrangements for an overnight stay in Birmingham.

The client specified that it would require a meeting room, hotel bookings for one night's stay for the team and a restaurant reservation for dinner. The client was however looking for a restaurant and transfers, within a limited budget. The client wished for a meaningful experience at a low cost.

#### Solution and Implementation

Avocet Travel Management made all the arrangements, with meticulous attention to every aspect of the event to ensure that the requirements of the client are fulfilled.

To stay within the stated budget of the client, Avocet thoroughly but subtly enquired about the wants of the delegates. It found that one of the delegates had a penchant for pies.

Avocet Travel Management arranged for dinner in a restaurant just outside the city to stay within the budget.

But, Avocet Travel Management wanted to make the event worth remembering for the delegates, as per the wish of the client. It therefore creatively used its expertise to arrange for their transfers by fire engine limousines.

Liaison with the Transfer Company and restaurant was maintained to ensure that everything takes place in a smooth manner in line with the schedule of the client.

It was a memorable experience for the delegates. Three years later, they are still talking about it!

#### Testimonial

*"The trip was simply wonderful! An event, us ladies, will not forget in a hurry!" - Anonymous*
